

Table 3.2 Fish species presence and arctic grayling density in selected lakes and streams in and adjacent to the Kantishna Hills, Denali National Park and Preserve.

	Arctic Grayling	Slimy Sculpin	Lake Trout	Round Whitefish	Northern Pike	Sheefish	Chinook Salmon	Chum Salmon	Coho Salmon
Wonder Lake	^c X	X	X						
Lake Creek	^c X	X	X						
Bearpaw River	^c X	X			X	X	X	X	X
Caribou Creek	^b X	X					X		
Glacier Creek	^b X	X					X	X	
Moose Creek	^c X	X		X				X	X
North Fork Moose Creek	^d X	X		X				X	
Friday Creek									
Eureka Creek	^a X	X							
Eldorado Creek Below Slate Cr.	^b X								
Eldorado Creek Above Slate Cr.	^d X								
Slate Creek	^a X								
Rainy Creek	^a X	X							
Jumbo Creek	^d X	X							
Glen Creek	^a X	X							
Spruce Creek	^b X	X							
Willow Creek	^c X								

^aLow to very low density of arctic grayling

^bLow to moderate density of arctic grayling

^cModerate density of arctic grayling in favorable locations

^dHigh density of arctic grayling in favorable locations
